

SB 1383 Related Edible Food Recovery Software

Services Offered by Careit Co.

Careit is a digital food donation marketplace that matches any type of business with extra edible food to a nearby nonprofit. Careit was designed to be an all-inclusive data tracking tool to assist municipalities in establishing a comprehensive SB 1383-compliant edible food waste prevention program.

1. Jurisdiction Edible Food Recovery Services (Section 18991.1)

- Increase commercial edible food generator access to food recovery organizations and services
- Provide monitoring tool for commercial edible food generator compliance

2. Education and Outreach / Record Keeping (Section 18985.3)

- Record the date and type of outreach material distributed to each EFG
- Creation of outreach material about how to use Careit to safely donate food
- Provide multiple annual free workshops for EFGs and FROs/FRSs

3. Jurisdiction Recordkeeping (Section 18991.2)

- Provide downloadable list of commercial edible food generators and their contracts with FROs/FRSs
- Provide downloadable list of food recovery organizations and services and their capacity

4. Automatic-compliance for EFGs and FROs/FRSs (Section 18991.3-5)

- Provide Careit users auto-generated contracts between EFGs and FRO/FRSs
- Provide Careit users with all required records for partner contact information, food donated/recovered in pounds, types of food, and frequency of donation

5. Annual Reporting (Section 18994.5(h))

- Provide a downloadable report of the number of EFGs and FRO/FRSs within the service area
- Provide a downloadable report of the amount of edible food recovered by FRO/FRSs in pounds

6. Inspection Tools (Section 18995.1)

- Provide an in-app inspection form for recording all required information for each EFG and FRO

7. Implementation Records (Section 18995.2)

- Provide digital reports with inspection details for inclusion in the EAR as detailed in Section 18994.2 (due October 1, 2022 for actions taken January 1 - June 30, 2022)
